

SPECFLUE

Register Plate Split Collar

Register plate Split Collars - a simple stainless steel clamp together collar which gives a neat finish where the flue passes through a register plate.

Flange 60mm wide.

Easy to paint after installation so matching with vitreous enamelled flue system.

Available to suit 125mm, 150mm, 175mm and 200mm diameter pipes.

Split design allows installation to existing and new projects.

Clamp fits tight to pipe so avoids fire cement joints cracking.

Product order code 13**060.
